# WatchGuard® Quick Reference Guide

WatchGuard has a security solution to meet the needs of any size business. Protect offices and telecommuters with a Firebox X appliance, adding additional layers of protection with our integrated security subscriptions. All solutions are backed by LiveSecurity Service, providing high-value, innovative support services to make the complex job of IT management easier.

## Firebox X UTM Bundle

Get everything you need for complete unified threat management in one convenient package, including:

- Firebox X Edge, Core, or Peak appliance
- WebBlocker<sup>†</sup> with HTTP and HTTPS support
- spamBlocker<sup>†</sup> with virus outbreak detection
- Gateway AntiVirus/IPS<sup>†</sup> with anti-spyware
- LiveSecurity<sup>®</sup> Service<sup>†</sup>

<sup>†</sup>One-year subscriptions

Also available: UTM Software Suite for Firebox X includes one-year subscriptions to WebBlocker, spamBlocker, Gateway AV/IPS, and LiveSecurity

## Why WatchGuard?

### Unified Threat Management Leader\*

Our UTM solutions provide comprehensive network protection. They integrate application proxy firewall, zero day attack prevention, anti-spyware, anti-virus, anti-spam, intrusion prevention, and URL filtering on a single platform. This greatly reduces the time and cost associated with managing multiple point solutions and significantly improves protection from blended threats.

### True Zero Day Protection

When security vulnerabilities in software make new kinds of network attacks possible, the built-in proactive defenses of the Firebox X are already working to keep your network safe.

### Easy Intuitive Management

WatchGuard System Manager is the intuitive UI used to manage all capabilities of the Firebox X Peak and Core. It can also centrally manage Firebox X Edge appliances that are used as endpoints on a Firebox X Peak or Core network.

\*IDC Worldwide Quarterly Security Appliance Tracker, Q4, 2007

### Model Upgradeability

If you need more capacity and security capabilities, model upgrades can be installed in minutes using a simple license key.

### Expert Guidance and Support

All WatchGuard appliances come with the choice of an initial 90-day or 1-year subscription to our ground-breaking LiveSecurity Service, providing customers with:

- Hardware warranty with advance hardware replacement to ensure minimal network downtime
- Access to ongoing functional enhancements for WatchGuard products
- Up-to-the-minute alerts on the latest threats
- Expert technical support and self-help resources

### Security Subscriptions

Boost protection in critical attack areas with fully integrated security subscriptions to keep spyware, spam, viruses, trojans, and web-based exploits out of the network.

### Fireware® Pro Advanced Appliance Software

For Firebox X Core customers\* with demanding networks who need VLAN, traffic shaping, QoS, server load balancing, dynamic routing, high availability, policy-based routing, multi-WAN failover, and multi-WAN load balancing. An upgrade to Fireware Pro also increases the number of SSL VPN tunnels to the maximum available per model.

\*Fireware Pro is included on all Firebox X Peak appliances.

### Edge Pro Advanced Appliance Software

Firebox X Edge customers\* with demanding networks can easily upgrade to Edge Pro advanced appliance software. Edge Pro provides multi-WAN load balancing, policy-based routing, and WAN failover. It also increases the number of SSL VPN tunnels to the maximum available per model.

\*Edge Pro is included with Firebox X55e and X55e-W appliances.
